

Jannae,

I've had an awesome experience treating with you! I look and feel so much better! I'm 34 years old, and the 30's, these last 4 years, seemed like they had been so hard on my body. Before I came to you, I felt constantly bloated, was gaining weight, and it seemed like no amount of watching my nutrition and exercise was able to bring my body back to where I was happy with it and at a state of balance with myself like I was during most of my teens and 20's.

After treating with you for just a few weeks, I feel like my face and body are back to where they were in my 20's!!! Between the Zerona laser-lipo, the endodermelogie, the facial resurfacing and treatments, the nutritional supplements, the exercise machine, and generally, the complete package, my body had a significant transformation in just 6-7 sessions. I feel energized and motivated to re-kick start my nutrition and to exercise more than I ever have to try to maintain and improve my body even further!

Thank you!

*Tanya*
